We aim at providing the best services from maintenance-related services to advocacy-related services to ensure our clients get the best possible solution for each specific need. Our current project is managing Kolej Ibu Zain, the first Premier Hostel in Universiti Kebangsaan Malaysia, Bangi Selangor.

OUR CAPABILITIES

- Gift Souvenir
- Merchandise
- Corporate Uniform
- Printing
- Event Management

High Quality With Professional Advise

We provide expert consultation to ensure every project is executed with most suitable approach. From selecting impactful promotional items, designing attractive retail displays, to planning seamless events, our expertise guarantees high-quality results that enhance overall visibility.

Comprehensive Solutions & Retail

We provide a one-stop service for printing, merchandising, and retail needs, managing every stage from order to delivery. With a wide product selection and efficient process, we ensure consistent quality, faster turnaround and cost-effective solutions.

UKM Dagang Sdn. Bhd., a subsidiary of UKM Holdings, specializes in merchandising, printing, and event management. As a comprehensive hub, we deliver end-to-end solutions for promotional items, business supplies, and corporate events. Our mission is to provide high-quality, innovative, and value-driven services that support both academic and corporate communities.

Events & Project Expertise

We provide end-to-end management for weddings, corporate functions, and special occasions, creating memorable experiences through careful planning and flawless execution. Our capabilities also extend to supporting community programs and university events when required.

Sustainable Choices

We are committed to environmental responsibility. By offering eco-friendly materials and sustainable practices, we help ensure that every project not only meets business needs but also supports a greener future.

On-Time Commitment

We are committed to punctuality and reliability, delivering every project on time with efficiency and accuracy while upholding the highest standards of quality.

UKM Digital pioneering healthcare organization dedicated to enhancing the well-being of communities through comprehensive and innovative health solutions. At UKM Digital, we believe that access to quality healthcare is a fundamental right, and we are committed to bridging gaps in healthcare delivery.

With a focus on cutting-edge technology and evidence-based practices, UKM Digital aims to improve health outcomes while ensuring equity and accessibility for all. Our dedicated team of healthcare professionals is passionate about delivering personalized care, supported by robust health information systems that ensure efficient and effective service delivery.

At UKM Digital, we are not just building a healthcare organization; we are creating a healthier future for everyone.

OUR CAPABILITIES

Our capabilities is to provide exceptional healthcare services that prioritize patient needs and foster a supportive environment for both patients and healthcare professionals. We integrate a wide range of services, from preventive care and treatment to rehabilitation and wellness programs, all tailored to meet the unique requirements of our diverse population.

OUR SERVICES

Queue Management System (QMS)

We manage customer flow in various settings, such as retail stores hospitals, and service centre. It helps streamline the process of serving customers and enhances their overall experience.

The system collects data on customer flow, wait times, and service efficiency. This information helps businesses make informed decisions about staffing and operations.

IT Audit

Involve the evaluation and assessment of an organization's information technology systems, processes, and controls. The primary goal is to ensure that these systems are operating effectively, securely, and in compliance with relevant regulations and standards.

IT infrastructure, including hardware, software, and networks, to evaluate performance and security.

Hostel Management Application

Software solution designed to streamline the operations and management of hostels or student accommodations. It typically includes features to help administrators, staff, and residents manage various aspects of hostel life efficiently.
